<input type="checkbox"/>	PHS60	8000/384k	60GB	\$119.95	

- All plans are prepaid monthly in advance by Credit Card only.
- Early termination of the agreement incurs a cancellation fee of \$125.00. (plus GST) Change of phone line or relocation to another address is equivalent to termination and a new service.
- Broadband Plans are available Australia Wide. ADSL may not be available due to a variety of technical reasons in select areas.
- Planet ISP reserves the right to change pricing, plans, and any terms by giving the customers thirty (30) days notice.
- With the higher speeds the actual speeds obtained depends on the customer line quality and distance, internal building wiring, as well as CPE actually used. The speed can therefore only be accurately determined once the service has been installed and tested. Planet ISP does not guarantee that higher speeds will be obtainable in any cases.
- Each phone device sharing the service phone line needs a filter.

15. CUSTOMER AUTHORISATION

Customer Declaration

YES I have read and agree to the terms and conditions as detailed in this Application and I have read the terms and conditions contained on the Planet ISP website, accept them in full and am 18 years or older. I acknowledge that the installation or transfer of an ADSL service may impact other services on that phone line.

Name			
Signature		Date	

Please print and sign the Customer Authorisation and Credit Card section and fax or post both pages to Planet ISP. Our Fax number is (03) 9597 0263

Terms And Conditions

1. The Service

- a) Planet ISP is providing internet access via ADSL Technology to a specific nominated telephone service plus a single login, an e-mail address and mail box only for each registered Broadband user (in the current format of username@planetisp.com.au). A dynamic IP address is included however fixed/static or additional IP addresses are available and will incur further costs. See our Website: www.planetisp.com.au for full details. Residential Broadband ADSL plans are usually suited to a single or a small number of users only. Refer to the Planet ISP Broadband plans if you have higher or corporate requirements.
- b) **Customer Premises Equipment (CPE)** is not included but can be provided at additional costs. Please see our Website for latest prices and specifications.
- c) **Availability of Service** – Not All telephone services within Planet ISP's serviced regions are able to utilise ADSL technology. Please check our Web site: www.planetisp.com.au for coverage and availability. Provisioning typically takes up to seven (7) business days.
- d) **Speed of Service** – Planet ISP will regularly advertise the types of ADSL services offered and the maximum speeds of these services via our Website: www.planetisp.com.au
- e) **Monthly Access Fee** – Planet ISP charge a monthly access fee, payable in advance by credit card only, which includes a quantity of data allocation upload and download. NB. Data is consumed when receiving emails, viewing general WebPages and most internet activities. i.e. it is not limited to the download or upload of specific files.
- f) **Data Consumption** – Planet ISP counts both uploads and downloads as data consumption by the customer. Data usage is viewable by each customer via client login at our Website: www.planetisp.com.au.
 - ii) Shaped plans are charged at a flat rate, which operates at full speed until the included Data limit is reached. The included data allocations will be monthly, based on your billing anniversary date. If you exceed the included data allocation, of either time usage period, you will only be slowed to dialup modem speeds during that period, until your next billing anniversary date.
 - iii) Excess Charge plans are charged out at \$0.10 per additional MB once quote has been reached.
- g) **Limitations of Service.** Planet ISP accepts no responsibility for any loss incurred, or implied, due to outages or non supply of the ADSL service. Planet ISP does not guarantee that the highest speeds will be attainable in all cases.
- h) **Impact of ADSL Service or ADSL Transfer on Other Services** – (a) the installation and operation of an ADSL service may cause temporary disturbance in your standard telephone service or a monitoring service; (b) the installation and operation of a monitoring service may cause temporary disruption to an ADSL service; (c) the installation and operation of an ADSL service may mean that certain telephone products will not be supplied to you on that line; (d) any provider of a monitoring service used by you has been notified that: (i) installation and operation of an ADSL service may cause temporary disruption in the standard telephone service or a monitoring service received by you and (ii) installation of (CPE) such as central splitters and network termination devices may be required.
- i) **Transfers.** Transfers are only available from participating providers and typically take three to five (3-5) business days. You must have an active existing ADSL service on the phone line for an ADSL transfer to be possible. Transfers are not available when changing addresses or changing a line on which the ADSL service is provided. Cancelling an ADSL service with the current provider before an ADSL transfer will cause a failed transfer and will require a new service. Transfer may result in downtime of the ADSL service (usually between 20 minutes and 4 hours) during the transfer process. Performing a transfer does not release the subscriber from any contractual obligations with their previous ADSL provider.

2. Support

Technical Support by telephone is available from Planet ISP 24x7x365. Planet ISP provides significant technical support via our Website, through email and telephone (support@planetisp.com.au). Planet ISP will endeavour to communicate outages or network interruptions via SMS and when appropriate via email or through our Website.

3. Term of Agreement

- a) The minimum commitment to Planet ISP is as defined on the order form and is usually only six (6) months from the start date. Charges apply from the Planet ISP start date of the service, not necessarily when the customer starts using the service or attempts to use the service. Should the start date be disputed for any reason or a line fault be identified, Planet ISP must be informed of same in writing within ten (10) days of the said start date or no claim or billing change will be considered. Cancellation or termination of the service prior to the minimum commitment term from the Planet ISP start date shall incur an early cancellation fee of \$125 plus GST which is due and charged at the time of cancellation. In the case of instantaneous service relocation, this fee may be waived.

- b) When the customer notifies Planet ISP that they wish to cancel the service, the prepaid monthly access fee for that month is not refundable. Cancellation must be in writing thirty (30) days before the required date. The service shall be disabled at the date requested.

4. Payment

- a) The new service, relocation or transfer and/or establishment fees and any hardware purchased shall be invoiced and payable at the time of placing your order. The ordering process cannot proceed without prior payment of these fees. Should the service not be able to be provisioned, and/or no hardware being supplied then there shall be no charges.
- b) By providing credit card details, Planet ISP is fully authorised to process payments as described in the terms and conditions in 1) e) and f) and under 5. Additional Fees.
- c) The billing anniversary date is the first of each month. First bill will be charged pro-rata for the numbers of days the service is provided until the commencement of the next billing period.
- d) You must advise us immediately of any changes to your credit card details. Should your credit card be declined and payment unable to be processed we will email you advising of the same. You must contact us and rectify within seven (7) days to ensure no disruption to your service.
- e) Service may be interrupted or disabled on accounts that reach fifteen (15) days past due. Service/s interrupted or disabled for non-payment are subject to a \$10.00 plus GST re-enable fee for each service in addition to full payment of the balance due on the account. All delinquent accounts that have not been paid in full after 60 days will be sent to our collection agency.

5. Additional Fees:

a) Change of Service:

- i) Speed – A once off fee of \$35 plus GST applies to change the speed of the service. Please note it can take up to five (5) business days to effect this change.
- ii) Plan – There is no cost to change from one plan to another of the same type and speed, other than the newer rates. Changes to billing and data allocation will take effect within two (2) business days. The data/usage will be reset, the plan anniversary date will change and the remainder of the current month's access fee will be forfeited.
- iii) Plan Type – Changes to plan types (e.g. Personal to Business) may incur a pro-rata charge from the start date of the new plan to the end of that month, based on the monthly access fee of the new plan, to bring the plan into line with the common anniversary date of these plans. To change plan types requires a new application form, as the Terms and Conditions are quite different. Any prepaid monthly access fee for the superseded plan is forfeited. There is no charge to change from Personal Plans to Business Plans. If a speed change is also required this will be charged at the standard rate. Changing to plans with a different underlying technology (e.g. Premium Business in certain coverage areas or SHDSL) will incur a new establishment fee if a new service is required.
- iv) Location - To relocate the service to a different address (or phone line) is effectively a new installation, as the services often overlap, and the complete provisioning process is invoked in its entirety. Availability of service at the new location MUST be checked and at least seven (7) business days allowed for provisioning. The establishment fee of \$125 plus GST will apply. Note that should an existing service need to be cancelled prior to the completion of the contract period a cancellation fee of \$125 plus GST is required as in Section 3.a). Customers must notify Planet ISP in writing to cancel the old service once the new one is active.

6. Privacy Policy

- a) Planet ISP captures and stores on our private network, details about the customers, their services and their usage. This information is not and will not be shared with any other company or individual unless advised to do so by the customer in writing or demanded by legal authorities. This provision of information extends to web authors, systems integrators and any and all other technical representatives.
 - b) Planet ISP (Technical) staff cannot access connectivity services passwords and can only provide a replacement password following written application by the customer.
 - c) Planet ISP may have to provide phone number and address detail to a third party supplier to provision a service but does not identify the customer by name.
7. Updates to these Terms and Conditions are posted to the company's web site at www.planetisp.com.au. These Terms and Conditions, pricing and plans may be changed at any time. Customers will be given one (1) month's notice via the website if this occurs. Planet ISP has complete discretion in assessing whether Customer has breached any of Customer's security or service obligations. Planet ISP may suspend or terminate the service if the Customer breaches any of these terms and conditions.
