- Connections require 1 months written notice of cancellation at all times. Termination will take place at the completion of the billing period which occurs 1 month after receipt of notice of cancellation.
- Customers will be notified by email upon activation of their VoIP service. Monthly billing will commence immediately.
- If we are unsuccessful in debiting a payment from your nominated card/account, Planet ISP reserves the right to suspend and/or cancel the service until payment is received.
- Customers remain solely responsible for advising Planet ISP should their credit card or bank account details or email address change at any time.
- You, the Customer permit us to receive and disclose your personal information to or from any credit providers or credit reporting agencies to use the information for all purposes permitted by the Privacy Act 1988. This information may include, by way of example and without limitation, any overdue payments for services, and any cheques that are dishonoured more than once. You also acknowledge that your personal information will be handled in accordance with the Privacy Act 1988.
- Planet ISP recommends a minimum Internet connection speed of 512/128 kbps for one VoIP line and 1500/256 kbps for two lines. Customer remains solely responsible for ensuring their Internet connection is of a suitable quality and standard to use with VoIP.
- Once provisioned, VoIP services cannot be converted to different service type (eg. hardware to software or one way to two way). In most instances, the existing service must be terminated and a new service ordered.
- Plan change requests must be lodged at least 7 days prior to the commencement of the next billing period.
- All prices are GST exclusive.
- Planet ISP does not offer number portability and therefore cannot port your number in or out of our wholesale VoIP supplier's network. Once a VoIP service has been disconnected the number will be quarantined for a specified period and the account holder will no longer have Right of Use of that number.
- Warning: Planet VoIP is not guaranteed to provide access to the 000 emergency services. It the account holder's responsibility to ensure that all people who will use this service are aware of this. We do not recommend that you use Planet VoIP as your sole telephone service/system. For your protection, please ensure you always have an alternative means of dialling the 000 emergency services.
- Planet ISP may contact you if you undertake an unusually high use of the service. Even if contact is not made, we reserve the right to cancel or suspend your service where there has been an unusually high use of the service. An unusually high use of the service includes a residential customer making more than four times the number of uncharged calls (for example, local and national calls on a plan where these types of calls are not charged) than the average active Planet ISP residential customer.
- Where a business customer has purchased a plan specified only for residential customers, Planet ISP will request the customer to switch to an appropriate plan and charge for past calls at the applicable business plan rate. Planet ISP VoIP plans may not be used for reselling to third parties without written consent. If we believe you are in breach of this, Planet ISP can cancel or suspend your service immediately.
- I have provided a copy of my current drivers licence and a copy of my credit card to Planet ISP for identification purposes.
